

Animal Dreams Ltd: *Bedding From Byproducts*

Animal Dreams is a Bradford-based manufacturer & wholesaler of pet bedding products. Established over 25 years ago, the company specialises in taking appropriate industrial by-products such as cotton wool, paper, cardboard and sawdust and producing a range of products for animals from hamsters to horses.

They can also accept clean timber offcuts as they have an in-house shredding operation, producing either bagged sawdust or cat litter pellets.

Through services offered to Re:Sourcing UK members, Animal Dreams have demonstrated a unique and innovative offering.

Such a creative company represents a fantastic opportunity for organisations to see their by-products transformed into new and worthwhile products, creating resource from unwanted material.

“

We have been adding value to byproducts for many years, manufacturing products at our Bradford facility. It is great to see the emphasis now being placed on waste as a resource - an idea that we have built our business on!

”

Paul Jenkinson, Managing Director, Animal Dreams

Animal Dreams subscribe to the Re:Sourcing UK monthly Resource Bulletin, which provides information on around 100 waste-related opportunities every month, from industrial waste streams seeking novel recovery approaches, live UK Tender listings or innovation offers from across Europe. This Bulletin allows companies to list their wastes anonymously, for review by specialist recyclers, innovators and academics.

If you wish to list waste streams in the Bulletin, or receive a copy of it every month, then please get in touch.
