S2S Lifecycle: Solving A WEEE Problem

S2S Lifecycle Services are a specialist recycling company offering a range of services tailored to meet the requirements of customers looking to find a recycling route for Waste Electronics and Electrical Equipment (WEEE). This can include the decommissioning of assets from site, full asset tracking of equipment along with refurbishment and re-sale of assets with pre-agreed revenue splits. Any sensitive data is wiped or a full certified data destruction service is available where security is paramount. Where assets cannot be re-sold, a full recycling service is offered.

Through services offered to Re:Sourcing UK members, S2S Lifecycle have demonstrated a unique and highly professional service, providing material collection and in-house recycling of WEEE at their premises in Rotherham.

“

Our advanced facility, high recycling rates and strong emphasis on customer service means that we can offer a cost-effective solution to a very high standard. We are delighted that we have been able to assist companies through the innovative Re:Sourcing UK model.

”

Alan Dukinfield, Managing Director, S2S Lifecycle

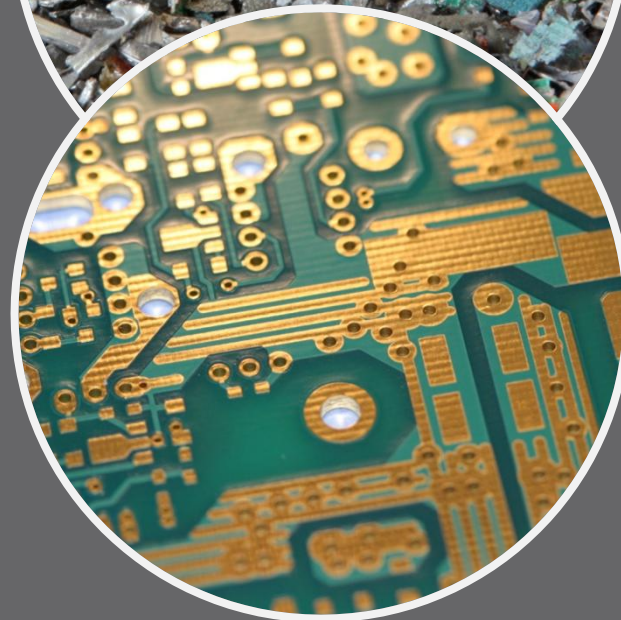

S2S Lifecycle subscribe to the Re:Sourcing UK monthly Resource Bulletin, which provides information on around 100 waste-related opportunities every month, from industrial waste streams seeking novel recovery approaches, live UK Tender listings or innovation offers from across Europe. This Bulletin allows companies to list their wastes anonymously, for review by specialist recyclers, innovators and academics.

If you wish to list waste streams in the Bulletin, or receive a copy of it every month, then please get in touch.
